BOOK SYNOPSIS

Debitage, the by-product flakes and chips from stone tool production, is the most abundant artifact type in prehistoric archaeological sites. For much of the period in which archaeology has employed scientific methodology, debitage has been discarded or ignored as debris. Now archaeologists have begun to recognize its potential to provide information about the kinds of tools produced and the characteristics of the technology being employed. Debitage can even provide clues regarding human organizational systems such as settlement mobility and site functions. This volume brings together some of the most recent research on debitage analysis and interpretation. It presents stone tool production experiments and offers detailed archaeological investigations for interpreting variability at the individual and collective levels. Although there are a number of volumes that focus on general analysis of lithic artifacts, this is the first volume to address debitage and should be of use to a wide range of archaeological researchers.

LITHIC DEBITAGE - Are you looking for Ebook Lithic Debitage? You will be glad to know that right now Lithic Debitage is available on our online library. With our online resources, you can find Applied Numerical Methods With Matlab Solution Manual 3rd Edition or just about any type of ebooks, for any type of product. Best of all, they are entirely free to find, use and download, so there is no cost or stress at all. Lithic Debitage may not make exciting reading, but Applied Numerical Methods With Matlab Solution Manual 3rd Edition is packed with valuable instructions, information and warnings. We also have many ebooks and user guide is also related with Lithic Debitage and many other ebooks.

We have made it easy for you to find a PDF Ebooks without any digging. And by having access to our ebooks online or by storing it on your computer, you have convenient answers with Lithic Debitage. To get started finding Lithic Debitage, you are right to find our website which has a comprehensive collection of manuals listed.
