BOOK SYNOPSIS

Another title in GMMs highly successful QBase series, this time focusing on the Final FRCA (Fellowship of the Royal College of Anaesthetists) with sets of examination papers the candidate can use to revise and practise their MCQ technique. As always, the self-learning experience is greatly enhanced by the free CD-ROM containing the QBase examination software. This powerful program allows the user to sit the pre-set exams as printed in the book, or to create their own exams using questions drawn from the total pool available on the CD-ROM. The program can either generate these exams randomly (maintaining the same proportions of each subject as the pre-set exams), or the user can select any number of questions in any subject area, to create their very own exam.
